

TO THE PEOPLE OF THE FACEBOOK

This is my second address of the people of the FACEBOOK.. In my first address to the people of the FACEBOOK on July 01, 2014 I described rather briefly my scientific work, actually my scientific revolution, which essentially completes the classical physics, unifying gravitation and electromagnetism in the symmetrized Maxwell-Djurić equations, and which is presented to the all concerned on my Internet Site maintained without any condition by the Lycos-Tripod Company <http://jovandjuric.tripod.com>

In that address I also issued the challenge that if anybody finds a basic error in my scientific work and proves that finding publicly before an invited audience and myself in a discussion, that person will receive the entire asset of the *Foundation of Stana Ljubisavljević (my late wufe)* and Jovan Djurić. That asset is worth over 3 millions of the US dollars in bonds and cash and about 2 millions of the US dollars of the real estate in Belgrade, Serbia.

I received very many e-mail messages since my address on July 01, 2014, but not a single person referred to my challenge described above precisely, which I repeat here once more. Jovan Djurić
